Hiring Manager

Leslie Corporation

Parañaque City, Metro Manila

Dear Hiring Manager,

I, **Vince Allen D. Cristal**, am writing to express my interest in the **Web Developer** position at Leslie Corporation. I am a **Magna Cum Laude graduate with a Bachelor of Science in Information Technology, major in Web and Mobile Application Development**, from Laguna State Polytechnic University – San Pablo City Campus. I am eager to apply my frontend and backend development, C#, .NET, database, UI/UX implementation, and troubleshooting skills in developing reliable and user-friendly web applications.

During my internship at **Armada Logics Inc.**, I gained hands-on experience with **C#, .NET, PHP, JavaScript, HTML, CSS, MySQL, RESTful APIs, and Git** while developing and maintaining web-based applications. I worked on implementing features, debugging issues, testing applications, managing databases, integrating APIs, and collaborating with team members throughout the development process.

Throughout my academic projects, I have been consistently involved in **frontend and backend development**, often serving as a team leader. These experiences strengthened my understanding of the **software development lifecycle, responsive web development, UI/UX implementation, REST APIs, database management, testing, troubleshooting, version control, and Agile workflows**. I also developed experience translating UI/UX requirements into functional interfaces while considering usability, performance, and maintainability.

As a **Magna Cum Laude graduate**, I bring strong analytical and problem-solving skills, attention to detail, adaptability, and a commitment to continuous learning. I am particularly interested in strengthening my expertise in **ASP.NET MVC/Web Forms, SQL Server, jQuery, AngularJS, application performance, scalability, and modern web development practices** while contributing effectively to Leslie Corporation.

Thank you for your time and consideration. I would be grateful for the opportunity to discuss how my background and skills can contribute to your development team. I may be reached at **allencristal23@gmail.com** or **0956-888-0221**.

Sincerely,

Vince Allen D. Cristal

Applicant

Professional Summary

Information Technology graduate specializing in web and mobile development, with hands-on full-stack experience. Strong foundation in crafting intuitive user interfaces using modern frontend frameworks, alongside backend programming in PHP, C#, and Java, with MVC architecture. Dedicated to writing clean, well-documented code and eager to learn new technology to drive project success.

Skills

Languages: JavaScript, PHP, C#, Java, Python
Frontend: HTML, CSS, Tailwind CSS, Bootstrap, Sass, Vue.js, JQuery
Backend: Laravel, RESTful APIs, Node.js
Databases: MySQL, MongoDB, PostgreSQL
Tools: Vercel, Figma, Git, GitHub, Postman
Other: MVC Architecture, UI/UX Design, Responsive Web Design

Education

Bachelor of Science in Information Technology
Major in Web and Mobile Application Development

Aug 2022 – Jun 2026
Laguna State Polytechnic University

- Magna Cum Laude
- Proficiency Awardee
- DOST-SEI Awardee

Professional Experience

Armada Logics Inc.
OJT Trainee

Jan 2026 – Apr 2026

- Led a team of 5 members from different schools to successfully develop a major project, overseeing the entire software development lifecycle with Agile methodology from planning to final delivery.
- Completed 100+ assignments and passed 2 major assessments, strengthening skills in web fundamentals and backend programming with 400 hours of training.
- Enforced code reviews, testing practices, and version control workflows using Git to boost code quality across the team.

Public Employment Services Office - Municipality of Rizal, Laguna
SPES Grantee

Jun 2024 – Jun 2026

- Conducted multiple field surveys to gather critical demographic and employment data from local job seekers and Overseas Filipino Workers, contributing to the community employment database.
- Supported daily office operations and collaborated with government personnel to execute local community programs, demonstrating adaptability and strong teamwork in a fast-paced environment.
- Encoded and digitized large volumes of official records into the local database, minimizing errors and enabling faster information retrieval for the office staff.

Projects

LSPU - Employment Information System | *PHP, Vue, Tailwind CSS, MySQL*

- Developed a centralized alumni platform using PHP and MySQL within an MVC architecture to connect employers and graduates.
- Built a responsive frontend using Vue, Tailwind CSS, and semantic HTML for a clean, accessible user experience.
- Implemented data visualization for career tracking, supported by clear, jargon-free system documentation.

Barangay Management System | *PHP, MySQL, Bootstrap, JavaScript*

- Built a resident management platform using PHP and MySQL to streamline local governance and barangay record-keeping.
- Designed a user-friendly frontend using Bootstrap, JavaScript, and semantic HTML to ensure structural accessibility.
- Digitized workflows for faster data retrieval, supported by clear documentation.

Bright Print | *PHP, MySQL, Bootstrap, JavaScript*

- Developed a customized ERP platform using PHP and MySQL to centralize order processing and service management for a printing business.
- Designed an intuitive dashboard utilizing Bootstrap and semantic HTML markup to enable seamless real-time order tracking.
- Automated manual inventory monitoring processes, significantly reducing tracking errors and improving overall operational efficiency.

Edureg | *PHP, Tailwind CSS, MongoDB*

- Developed an educational registration platform using PHP to efficiently streamline user enrollment and data management.
- Built a highly responsive user interface utilizing Tailwind CSS to ensure structural accessibility.
- Managed flexible data storage and schemas efficiently utilizing MongoDB for scalable performance.

Techzone | *Java, Bootstrap, JavaScript*

- Developed an e-commerce platform for gadgets using Java to efficiently manage product catalogs and user transactions.
- Designed a responsive, mobile-ready storefront utilizing Bootstrap for a clean and structured layout.
- Implemented interactive frontend components using JavaScript to ensure a seamless and dynamic shopping experience.

Certifications

Proficient in Web Fundamentals

Feb 2026

Armada Logics Inc.

- Passed an exam on cloning the Trello landing page using only HTML and CSS within a 4-hour time limit.

Proficient in Java OOP Fundamentals

Mar 2026

Armada Logics Inc.

- Passed an exam on developing a Java console-based Student Information System, applying Encapsulation, Inheritance, Polymorphism, and Abstraction within a 2-hour time limit.

IT Specialist Java

May 2026

Certiport

- Passed the IT Specialist Java certification exam in under 50 minutes with a score of 950/1000.

Software Engineering for Web Developers
IBM SkillsBuild

Mar 2026

- Earned 6 microcredentials completing an 83-hour pathway covering full-stack development, database integration, and automated deployment.

User Experience Designer
IBM SkillsBuild

Apr 2026

- Earned 6 microcredentials through a 56-hour pathway focused on user-centered design, wireframing, prototyping, and usability testing.

Civil Service Professional Eligibility
Civil Service Commission

Aug 2025

- Passed the Civil Service Examination - Professional Level, validating strong analytical, logical, and verbal problem-solving skills.

Seminars and Trainings

One Code Camp Bootcamps

July 2024

- **Front-End Development (2 Weeks):** Strengthened skills in crafting responsive, accessible, and modern user interfaces.
- **Data Analytics (2 Weeks):** Gained practical experience in data processing, visualization, and analytical problem-solving.
